| SOLDERING PROCESSES | | | | | | | | | | | |

For best results, please follow these recommendations: \triangle Temperature Profile:

LIAND COLDEDING . Lies a soldering increase f 20 worth

 \triangle HAND SOLDERING : Use a soldering iron of 30 watts, Controlled at 350°C approximately 5 seconds while Applying solder.

△REFLOW SOLDERING: When applying reflow soldering the peak temperature of the reflow oven should be set to 260°C max.
